BACA EATING DISORDERS CLINIC

JOB POSTING: PSYCHOTHERAPIST, FULL OR PART TIME

BACA clinic is a private clinic offering specialized outpatient and intensive services for people with eating disorders such as anorexia nervosa, bulimia nervosa, and binge eating disorder. Our multidisciplinary and evidence-based treatment model allows us to touch on all spheres of our clients' lives and promote personalized care.

We believe in an individual's ability to reach a full recovery and mobilize all available resources in order to foster hope in the possibility of a balanced life, free from weight and appearance-related obsessions. We are seeking a licensed psychotherapist who would like to grow with our team and is up to the challenge of working with our clientele. Duties include conducting psychological evaluations and providing individual psychotherapy to adults and adolescents 14 years and older, as well as the possibility of facilitating therapy and support groups.

THE IDEAL CANDIDATE

- Holds a psychotherapy permit delivered by the OPQ
- Has excellent French and English oral and written communication skills;
- Is available 2 to 5 days a week to meet clients, including at least 2 evenings
- Is willing to participate in weekly team meetings as well as regular supervision with a senior clinician.
- Is passionate about working in mental health, and particularly interested in eating disorders
- Is flexible and thrives in a collaborative environment

WHAT WE OFFER

- Clinical supervision and continuing education that is evidence-based
- A warm, caring atmosphere and flexible hours
- The opportunity to work on a team of passionate professionals including psychologists, psychotherapists, nutritionists, creative arts therapists, social workers and a MD
- Competitive remuneration based on experience
- Beautifully renovated offices in the heart of downtown Montreal
